Database Release Agreement

The image processing and pattern recognition Laboratory (IPPRL) has constructed and collected several databases. **the databases are now made partly available for research purpose only on a case-by-case basis only**. IPPRL is serving as the technical agent for distribution of the database and reserves the copyright of all the images in the database. Any researcher who requests the databases must sign this agreement and thereby agree to obey the restrictions listed in this document. Failure to observe the restrictions will result in access being denied for the request of the future version of the databases and being subject to civil damages in the case of publication of images that have not been approved for release.

The researcher(s) agrees to the following restrictions on the databases:

1. Any images will never be released in commercial materials, newspapers, or other public medias.
2. The database will not be further distributed, published, copied, or further disseminated in any way or form whatsoever, whether for profit or not. This includes further distributing, copying or disseminating to a different facility or organizational unit in the requesting university, organization, or company.
3. All the images will be used for the purpose of scientific researches only. The databases, in whole or in part, will not be used for any commercial purpose in any form.
4. All technical papers, documents and reports which use the databases will bu recommended to refer to the papers corresponding to datasets. And a copy of the published paper, reports and other documents that uses the databases will be forwarded to the IPPRL.
5. The final explanation of this agreement refers to the IPPRL.
